

Community consultation for safety planning on the Cunningham Highway

July 2021

Works overview

The Department of Transport and Main Roads is working to identify safety improvements for key Queensland roads in a bid to reduce the number of fatal and serious injury crashes across the state.

The Cunningham Highway between Lyndhurst Lane in Warwick and Millmerran-Inglewood Road in Inglewood has been identified as an integral freight route supporting agricultural industries across the Southern Downs and Goondiwindi regions.

Safety improvements to this important section of road will have the added benefit of improving transport efficiency and reliability while supporting economic development in Southern Queensland and the Darling Downs.

Planning overview

The safety-focused planning project will involve reviewing the recent crash history as well as the key factors that contribute to increased crash risk. The assessment will consider all road users including riders, motorists and heavy vehicle drivers.

The department is consulting with the community to help identify problem locations and the best opportunities to reduce the risk of fatal and serious injury crashes.

The solutions will be prioritised on their ability to deliver the greatest road safety benefits to reduce fatal and serious injuries.

Have your say

As part of the planning process, the department would like to hear from the community about safety issues in the project area.

We request your input in order to gain a thorough understanding of the issues and subsequent opportunities for improvement.

Have your say at the department's online consultation hub and join our online community at: www.yoursay-projects.tmr.qld.gov.au

For further information, or to provide feedback about this safety planning project in other ways, please do not hesitate to contact us on the details below.
